

# FUNCTIONAL REQUIREMENTS

## Recipes, Version 1.0

### Overview:

Recipes composed of books and notes are not remotely accessible. This application allows users to store recipes in a database that is accessible online from any location.

### Statement of Functionality:

This software will allow users to:

- Store recipes in a database
- Access them online
- Edit
- Delete

### Recipe Data:

- Title
- Preparation Time
- Number of servings
- Ingredients
- Directions

### Out of Scope:

- User accounts
- Login authentication
- Recipe ownership
- Search

### Future Development:

- **Version 2.0:**
  - Add search functionality
- **Version 3.0:**
  - User accounts
  - Login authentication
  - Recipe ownership
