FUNCTIONAL REQUIREMENTS

Recipes, Version 1.0

Overview:

Recipes composed of books and notes are not remotely accessible. This application allows users to store recipes in a database that is accessible online from any location.

Statement of Functionality:

This software will allow users to:

- Store recipes in a database
- Access recipes online
- Search the database
- Edit recipes
- Delete recipes

Out of Scope:

- User accounts
- Login authentication
- Recipe ownership

Future Development:

Version 2.0:

- User accounts
- Login authentication
- Recipe ownership
- Restrict edit and delete functionality to recipes' respective owners

Version 3.0

- Search other online recipe resources via web services API
